Standard & Luxury options

Wind, cliffs and open skies

From July to January, a strong and steady trade wind blows along the coast of Aracati. It is one of the best places in the world to learn to kitesurf. Quixaba is a peaceful fishing village with white cliffs and blue sea. A few minutes away is Canoa Quebrada, with its red cliffs and a village that welcomed French filmmakers and hippies from all over the world in the 1970s.

This trip brings both worlds together. By day, you learn to ride with a certified instructor. At the end of the afternoon, you slow down at the **Moon Circle on the Cliffs**: guided meditation and a sound bath at sunset, near the moon and star carved into the rock in 1977.

About the Moon Circle

In 1977, the artist Kako carved a crescent moon and a star into the cliff of Canoa Quebrada. They became the symbol of the village and of the years when travelers from all over the world found it. The Moon Circle brings back that spirit: a walk to the cliffs, guided meditation and a sound bath (singing bowls and vibration instruments) as the sun sets over the ocean. No experience needed.
